A fitness coach had one price: $5K, with payment plans.

We kept the $5K. Then we added a $10K pay-in-full group coaching option, with one-on-ones and quarterly masterminds included.

We also offered his existing clients a $5K mastermind seat. Keeping that group small added about $25,000 a quarter.

None of that needed more traffic. About four months in, he was making over $80K a month, with no ads.
